

Introduction

Course Overview

[About this Course and the Certification](#)

Core Knowledge

AWS And General IT Knowledge

[Security Features that AWS Provides and Best Practices](#)

[Able to Design and Implement for Elasticity and Scalability](#)

[Network Technologies as They Relate to AWS Networking, Including: DNS and load balancing, Amazon Virtual Private Cloud \(VPC\), and AWS Direct Connect](#)

[Working with VPC DNS](#)

[Storage and Archival Options](#)

[State Management](#)

[Database and Replication Methodologies](#)

[Self-Healing Techniques and Fault-Tolerant Services](#)

[Disaster Recovery And Fail-Over Strategies](#)

[Application Migration Plans to AWS](#)

[Deployment and Management](#)

Hands-on Lab: Configuring VPC DNS

Enterprise Account Management

[Consolidated Billing](#)

[Consolidated Billing and EC2 Reserved Instances](#)

[Cross Account IAM User Strategies](#)

[Creating Cross Account Roles](#)

[Temporary Access Using Roles and STS](#)

[Federated Access Using SAML](#)

[Web Identity Federation](#)

[Costing and Resource Tagging](#)

[Resource Groups](#)

[AWS Config](#)

[Budgets and CloudWatch Alarms](#)

[Exercise: Playing With Web Identity Federation](#)

Required Services

Amazon CloudTrail

[Amazon CloudTrail Overview](#)

[Configuring CloudTrail in the Console](#)

[Monitoring CloudTrail Events with CloudWatch](#)

AWS Key Management Service

[AWS KMS Overview](#)

[Using The CLI to Encrypt and Decrypt Data with the CMK](#)

Amazon Kinesis

[Amazon Kinesis Overview](#)

[Kinesis Mobile IOT Scenario Example](#)

Amazon EC2 And Design Patterns

[Integrating CloudWatch Logging with EC2](#)

[Real-Time Processing of Log Files with Amazon Kinesis](#)

[Protecting Production Resources](#)

[Migrating EC2 Resources to Another Region](#)

[EC2 Backup Strategies](#)

[HPC \(High Performance Computing\) on EC2](#)

[HPC with Cluster and Grid Computing](#)

[Architecting for Performance](#)

[Increasing Performance with EBS Raid Configurations](#)

[High Availability and Disaster Recovery with Multi-Region Design](#)

[Hands-On: Route 53 Complex Configurations](#)

[Mitigating DDoS Attacks with AWS](#)

[Supporting Legacy Applications in the Cloud](#)

[Elastic Load Balancer Design Patterns](#)

Exercise: Protecting Production Resources

Hands-on Lab: Configuring Proxy Protocol on an ELB and Nginx

Hands-on Lab: Configuring EBS Volume RAID 0

Hands-on Lab: Restoring Files from EBS Volume Snapshots

Hands-on Lab: Creating Complex Routing Policies

Virtual Private Cloud (VPC)

[Network and Data Security](#)

[Network Monitoring with VPC Flow Logs](#)

[Extending On-Premise Networks with VPN](#)

[Using Directory Service to Connect Hybrid Architectures](#)

[Security Zones](#)

[Understanding AWS IP Subnet Reservations](#)

[Hands-on Lab: Configuring VPC S3 Endpoints and NAT Gateways](#)

AWS Direct Connect

[Working with AWS Direct Connect Virtual Interfaces](#)

[Accessing Remote Regions](#)

Amazon ElastiCache

[ElastiCache Overview](#)

[ElastiCache: Memcache](#)

[ElastiCache: Redis](#)

Amazon Redshift

[Redshift Overview](#)

Amazon CloudFront

[CloudFront Key Concepts and Overview](#)

[Dynamic Content with CloudFront](#)

[CloudFront Reporting](#)

[CloudFront Security](#)

[CloudFront Performance Considerations](#)

[Streaming Media with CloudFront](#)

[Forcing HTTPS to The Origin](#)

[Creating a Multi-Region CloudFront Solution](#)

Amazon Elastic Transcoder

[ElasticTranscoder Overview](#)

[Streaming With S3, CloudFront, and Elastic Transcoder](#)

Hands-on Lab: Streaming Video with Elastic Transcoder, S3, and

CloudFront

AWS Data Pipeline

[Introduction to Data Pipeline](#)

[Using Data Pipeline to Replicate DynamoDB Data Across Regions](#)

Hands-on Lab: Using Data Pipeline to Copy DynamoDB Data to S3

Amazon RDS

[RDS Overview and Security Options](#)

[MySQL and MariaDB on RDS: Multi-region Delivery, Migrating Data from On-Premise, and Disaster Recovery](#)

[Oracle DB on RDS](#)

[MSSQL DB on RDS](#)

Amazon CloudSearch

[Amazon CloudSearch](#)

Amazon EMR

[Amazon EMR](#)

[Hands-on Lab: Analyzing Log Files with EMR](#)

Deployment Concepts On AWS Services

[CloudFormation](#)

[Cloudformation Hands-on](#)

[OpsWorks](#)

[OpsWorks Hands-on](#)

Amazon SQS

[Message Priority](#)

[Batch Processing Job Observer](#)

Hands-on Lab: Auto Scaling Based off of SQS Message Queue Size

DynamoDB

[DynamoDB Overview and Some Design Patterns](#)

[Secondary Indexes](#)

[DynamoDB Multi-Region Replication](#)

Preparing For The Exam

[Study Methods after Completing the Course](#)

[Test Taking Best Practices](#)

Practice Exam

[Quiz: Practice Exam](#)

[Quiz: Are You Ready To Take The Exam?](#)

[Course Features](#)

[Course Scheduler](#)[Hands-on Labs](#)[Practice Exam](#)[Exercises](#)[Flash Cards](#)[Learning Paths](#)[Community](#)[Study Tools](#)
